BD. TO ACQUIRE PROPERTY FOR VILLAGE GREEN

The Farmingdale Village Board adopted a resolution at Monday's meeting to acquire the land adjacent to Village Hall on Main Street for a park to be called a 'Village Green' and plans for the site improvement were also authorized.

The three buildings located on the 3/4 acre parcel will be razed after negotiations have been completed. Federal funds will be made available to aid in the financing and development under the government's 'Open Space' program, a village spokesman told the OBSERVER.

In other business matters, Mayor Joseph Zureck issued two proclamations this week. One was to proclaim September 21 as 'Postal Services Day' to pay tribute to Postmaster Leo Morgan and his employees, who, as Mayor Zureck put it "daily perform many thankless and unrecognized tasks that benefit us all".

The second proclamation was made by the mayor in behalf of the Farmingdale Midget Football Association proclaiming the week of September 17 through September 23 as Midget Football Week in Farmingdale.

Parade Will Mark Start Of Midget Football Season

250 Farmingdale Midget football team members and 60 cheerleaders will open the football season this Sunday with a parade at 1:30 p.m. The youngsters, ages eight through 14, will be joined by Town and Village officials and the Vanguards Marching Band at the Northside School and will march to the Weldon E. Howitt Field by way of Main Street.

After opening day ceremonies, the Senior Hawks, made up of 13 and 14 year olds, will begin the season when they take on a tough Rosedale Jets eleven from Queens.

The official season for the five Hawk travelling teams will begin the following Sunday. In all, nine teams will represent Farmingdale in three leagues.

Makes A Hobby Out Of Old Cars

Bob Stabenau of North Massapequa, a photographer by trade, has made a hobby out of his interest in old cars. "The Fun of Old Cars" is the title he has given this hobby of old car collecting, which has resulted in a book that is to be published on September 18.

Associated with Grumman Aircraft Engineering Corporation of Bethpage in the Documentation Photography Department, Stabenau resides at 103 North Beth-mond Avenue with his wife, Leah, and two sons, David, 15, and Robert, 10.

The publisher, Dodd, Mead, has this to say about the book: "These 26 automobiles, photographed in unusual detail and depth, are fun. In fact, the book he was working on for the past two years, and which was scheduled to be published on September 18, is called "The Fun of Old Cars.""

The book, which explores in text and pictures and 30,000 words in "The Fun of Old Cars," has been designed by Bob Stubenrauch (R) of North Massapequa, is given to Bill Leinbuck, who also is associated with Grumman Aircraft Engineering Corp., and who is also an old car buff.

Begin Library Construction

Construction of the new Plainedge Public Library building got underway last week with the demolition of two old structures on the site. Formal groundbreaking ceremonies are expected to take place within two or three weeks.

The 19,480 square foot building, located on Hillville Road opposite the present rented quarters, is expected to be ready in the summer of 1968. The building will have a book capacity of 300,000 volumes and provide reference service for 50 patrons. At present, the library is located in two rented stores and seats 30 patrons. The nearly 30,000 volume book collection is housed into less than 2000 square feet.

Noting that at the present time the library is struggling with the most serious space problem of its nearly four years of existence, Library Director Alfred Freund said, "We now have to shove books in the basement or accommodate the influx of new materials needed in the new building, if the new library opens next week, it wouldn't be too soon for us."

Board To Consider Bus Contract Thursday Night

The Massapequa Board of Education will decide on Thursday night on any action to take regarding the bus company, the County School Service Inc. Last Thursday, nearly 4,800 students were without transportation or were late because 37 of the bus company drivers had not come to work, Board President J. Lewis Ames said that the district would consider the contract in default. At Thursday night's meeting, the Board had given the bus company one week to hire new drivers.

Louis Bartell of the bus company told the OBSERVER that his firm has fulfilled its part of the agreement. On Thursday morning, he stated, 67 furnaces were on the road with three standby drivers. A school spokesman said that all runs were covered, but the buses were running late.

The bus company is presently hiring additional bus drivers.

Emergency Equipment Building at county police headquarters, 12th Street, Merrick.

The unclaimed property consists of more than 300 bicycles, cameras, projectors, tires, jewelry, radios, power tools, clothing and miscellaneous property.

None of the items on auction will be on display before 8 a.m. on the day of the auction.

Farmingdale OBSERVER Thursday, September 14, 1967
Letters To The Editor

To Mr. and Mrs. Farmingdale,
As wasteful of time as it is to reply to the ridiculous diatribes of Mr. Boss and company, at the target of their attempted character assassination it is incumbent upon us to comment. We may disagree with them, I must admit, but whether or not under orders in working toward their goals, it becomes apparent that the Board, through practices established, has pushed the panic button because of its desire to misconstrue and misrepresent. The Board's budgetary demands on the Board. Isn't it time, the Board should enter into some sort of agreement to stop the bickering and clashing and get down to the matter of demands on the Board. Isn't it time, the Board should enter into some sort of agreement to stop the bickering and clashing and get down to the matter of

Dear Editor:
I hope every American in this country has learned the condemnation that appeared in the Observer. The article and dissertation it calls for can be with that letter being the first of many.
I found noise I have been in our political society to hear from the John Birch Society, caused me to spend several evenings reading and trying to understand what that society, my research brought to the forefront of my mind was that that society could be arrived at: It is an extremely popular organization that is fighting for our survival and the American way of life.
In my opinion, that letter follows the facts that I have had brought me to another conclusion. The John Birch Society, per se, and its charts, and teaching of a Communist, a Socialist, and a Socialistic and a Conservative organization. I have now made ready and am still making available to the public, a biographical summary.
If, however, you have more facts that you should trust these Dale Call down Main Street prior to the official season opening at 1:30 p.m. Why not take the family to the Weldon E. Howitt ball field and watch the well drilled youngsters perform. The youngsters will enjoy it. And so will you.

The growth of crime in this country is not just a matter of headline stories. Cold figures show that, while our national crime rate has increased by about 10 percent since 1960, the total volume of crime reported in the nation has increased by about 40 percent.

Opinion polls show that the average American recognizes the growth of lawlessness to be one of the most serious problems facing this nation. Yet another governmental committee is working more toward protecting the criminal than being concerned for his victim.

In recent years, the death penalty has just about disappeared from the American scene. The headlines tell us again and again of persons convicted of a crime and freed after only a few days in jail, or even on parole. The state laws are to be subject to the protection of the law, if they are to be so subject to the protection of the law. For that matter, under the revised penal code which goes into effect in New York State Sept. 1, there has been a shift in the circumstances under which a person would be liable to a thin line which stands between the criminal and the victim. This is one of the reasons that the state laws are not worth anything if they cannot be subjected to the protection of the police who must enforce them.

The Farmingdale Police Boys Club will hold registration this coming week for their various programs.

Registration for basketball, archery and the Nautical Cadets program will be held on Monday, Sept. 18, starting at 7 p.m. at Woodward Parkway School. Registration for bowling will be held Saturday, Sept. 23, starting at 7 p.m., at the Farmingdale Lanes.
Complain Roaches All Over Place

Mc Partlin Pledges Full Time To TOB Post If Elected

Joseph P. Mc Partlin, a Massapequa School teacher and Demo­ cratic candidate for Oyster Bay Town Councilman, this week pledged to be a full time councilman and to do everything in his power to meet the problems of the township of Oyster Bay.

Mc Partlin pointed out that all too often at town meetings there were outside interests which severely interfered with the business of the meeting and that a full time councilman was needed.

Bob's one of the best drivers you'll ever meet. He's never had an accident—never even had a parking ticket. But even the best drivers make mistakes once in a while. And when they do, you've got to be ready for it—by driving defensively. When you're passing another car, defend yourself by letting the guy ahead know you're about to pass. Use your horn or lights. And make sure no one's trying to pass you at the same time! Avoid trouble by anticipating it and you won't end up on the receiving end of some other guy's goof. Not even if he's your best friend!

Watch out for the other guy!
Wachtler: Taxpayers Should Not Pick Up City Welfare Tab

Supervisor Sol Wachtler, the Republican candidate for County Executive, charged County Executive Nicholas Petito with "supporting a plan that would have Nassau residents picking up part of the New York City welfare tab when that proper concern should be with increased aid to education in this County.

Wachtler said that "If the State is going to go into new programs of casework local assistance, it would be far better for Nassau if it were fed to education rather than for welfare."

Petito Demands Public Hearings On Master Plan

Supervisor Michael N. Petito today gave the Town Board one more week in which to schedule public hearings on a proposed "Master Plan" and announced that if no reply is made in that time he will schedule the hearings himself. According to the current formula, Nassau County would receive $56, 2-million in additional aid to education, "Increasing by more than three times what we now re-

POLICE HOLD

NARCOTICS SEMINAR

Nassau County Police Commissioner Francis B. Lonzo announced that the Police Department will hold a seminar on narcotics for police officers.

The seminar will be held at the Nassau County Police Department's headquarters at 211 Washington Street, Mineola.

The seminar will begin at 1:30 p.m. and will last until 5 p.m.

The seminar will cover topics such as the effects of narcotics on the human body, the legal aspects of narcotics, and the procedures for investigating narcotics cases.

The seminar will be open to all Nassau County police officers, and all participants will be provided with a certificate of attendance.

The seminar will be conducted by a team of experts, including narcotics detectives, drug enforcement officers, and legal experts.

The seminar will focus on the latest developments in the field of narcotics and will provide officers with the tools they need to effectively combat the drug problem in their communities.

The seminar is part of the Police Department's ongoing efforts to improve the quality of training for its officers and to enhance their ability to fight criminal activity.

The seminar will be conducted in a professional and informative manner, and all participants will be encouraged to ask questions and share their experiences.

The seminar will be an excellent opportunity for officers to learn from one another and to gain valuable insights into the complexities of the narcotics problem.

The seminar will be conducted in a professional and informative manner, and all participants will be encouraged to ask questions and share their experiences.

For Vietnam Adopted Unit

Alton J. Lamphere, President of the Farmingdale Knights of Columbus, announced that a second benefit dance will be held at the Knights of Columbus Hall, November 30 at 9:00 p.m. to benefit the 3rd Battalion, 9th Infantry, 25th Infantry Division, nicknamed the "Marauders," to be held at the Army Orange Depot. The proceeds of this dance will go to the American Civil War Relief Fund in the name of the Knights of Columbus, and the event will be used to draw the community together to support the troops.

The event is being organized by the Farmingdale Knights of Columbus, and local businesses are donating prizes and raffle tickets to support the cause. The dance will feature music, dancing, and a silent auction. Attendees are encouraged to come out and support the marauders as they continue their service in Vietnam.

Free Entry: No admission charge for this event. Food and beverages will be available for purchase on site.

Date: November 30
Time: 9:00 p.m.
Location: Knights of Columbus Hall, Farmingdale

All proceeds will go to support the 3rd Battalion, 9th Infantry, 25th Infantry Division, nicknamed the "Marauders," currently stationed in Vietnam.

Safety Against Magnetic Mines

A magnetic measurement system that will be used to determine and improve the degree of safety of naval vessels against magnetic mines is being developed in Farmingdale by Fairchild Hiller's Republic Aviation Division with a $60,778 Navy contract.

The prototype data acquisition and analysis system, known as a degaussing range system with digital computer data processing, will take about a year to complete. Degaussing includes a technique which employs a series of electrical coils to minimize induced magnetic fields of a ship. With the degaussing done, the ship's vulnerability to magnetic mines is decreased.

In the past, degaussing range systems have been used to measure these magnetic fields but at such an interval that before the magnetic fields could be adequately reduced.

The range system will consist of a series of magnetometers installed underseawater in the harbor. As ships pass over the sensors their magnetic fields will be measured and results will be fed into the computer. The computer, using these figures and information about the coil system aboard ship, will immediately calculate the adjustments that should be made to the ship's de­gaussing coil system.

Cite Morgan For School Savings Program

Postmaster Leo J. Morgan this week was commended by Glenn R. Johnston, National Director of the United States Bonds Division, for his leadership and service to the Treasury Department's School Savings Program.

The Farmingdale schools offer­er School Savings (a part of the national wide Savings Bond Pro­gram. Savings Bonds from $50 to $500 can be bought.

Reappointed To Youth Board

County Executive Eugene Nic­kerson last week reappointed Sanford V. Lenz, of 95 Cedar Drive, Farmingdale, to a three-year term in the Nassau County Youth Board.

The Youth Board, created by County Executive Nickerson to better serve and direct Nassau County's young people, performs a wide variety of activities, in conjunction with the Catholic Diocese of Rockville Centre, the group works to encourage thrift and civic responsibility among young people in the Farmingdale Observer area.
